

6th International Conference on Neuroscience and Psychiatry

Theme: Modern Revolution for the Future of Neuroscience and Psychiatry

Date

Nov 11-12, 2026

Venue

Bangkok, Thailand

SCAN ME

Scientex conferences host a plethora of events in various fields, including Medicine, Pharma, Health Science, Life Science, Engineering, and Technology. We organize all our events with the utmost care and diligence, providing top-notch facilities and infrastructure for smooth and successful knowledge transfer among attendees. Our goal is to solve modern scientific problems for the betterment of our lives. Scientex conferences focus on achieving greatness by offering excellent opportunities for professionals to explore the scientific research community and introduce potential breakthroughs. We provide a fitting platform for eminent speakers, innovators, inventors, industry professionals, scientists, academicians, established authors, scientific editors, medical physicians, medical service providers, nursing professionals, research associates, analysts, and students to exchange ideas and find solutions to major global challenges. Our conferences are highly successful, featuring high-quality interactive technical sessions with recent research findings and futuristic trends. We focus on providing workshops and symposiums through well-established industrial and academic tie-ups with various professional bodies, organizations, and top-rated universities worldwide. We bring in eminent speakers with world-class expertise from various countries to enlighten our researchers and spark enthusiasm for research through our best conferences. These events provide a platform for effective collaborations on the latest research for the worldwide community. Our conferences include exceptional keynote speeches, interactive sessions, and lively debates on research and development in Medicine, Engineering, and Technology. ([click here for more](#))

About Conference

With a grand success of past four series of Neuroscience and Psychiatry conference, We welcome you all to attend the “6th International Conference on Neuroscience and Psychiatry” scheduled during November 11-12, 2026 in Bangkok, Thailand. The main theme of the conference is “Modern Revolution for the Future of Neuroscience and Psychiatry”. Join this intimate forum to create meaningful partnerships with 80+ Neuroscience experts. Translate key technological & mechanistic neuroscience advances into the clinic.

Neuroscience 2026 Mission: To provide the highest quality neuroscience and psychiatry education to learners and practitioners of all levels.

Neuroscience 2026 Vision: Through our inspiring international faculty, innovative programming, and vibrant interactions among all attendees, Neuroscience 2026 conference aspires to be the best neuroscience and psychiatry educational event in the world. We strongly believe that Neuroscience 2026 will be a huge success and exceed our expectations extremely. ([click here for more](#))

Conference Schedule

Day 1 - November 11, 2026 (Wednesday)

08:55-09:00	-	Registration
09:00-09:15	-	Opening Ceremony and Introduction
09:15-10:30	-	Keynote Session
10:30-10:50	-	Refreshment Break
10:50-12:30	-	Break Out Session
12:30-13:30	-	Lunch
13:30-15:00	-	Break Out Session
15:00-15:30	-	Refreshment Break
15:30-17:00	-	Break Out Session

Day 2 - November 12, 2026 (Thursday)

09:00-10:30	-	Keynote Session
10:30-10:50	-	Refreshment Break
10:50-12:30	-	Break Out Session
12:30-13:30	-	Lunch
13:30-15:00	-	Break Out Session
15:00-15:30	-	Refreshment Break
15:30-17:00	-	Break Out Session

6th International Conference on Neuroscience and Psychiatry

November 11 - 12, 2026 | Bangkok, Thailand

SPEAKER PRESENTATIONS

Title: Neurology enables human experience and language enables neurology

Jolyon Grimwade, Change Consultations, Australia

Title: Assessment of the relationship between motor and cognitive impairments as a factor influencing the effectiveness of robotic therapy

Evgeny Biryukov; Yulia Batueva; Nikolai Spirin, Russian Federation

Title: Endoscopic endonasal approach vs. transcranial microsurgery for skull base tumors with optic chiasm compression: A systematic review and meta-analysis

Jesús Jiménez Sánchez, México

Title: The bignetti model: Virtual intelligence and intrinsic bilingualism are prerequisites for fitting in an unknown world

Enrico Bignetti, University of Parma, Italy

Title: Family as a risk and protective factor in the psychosocial development of children from families with addiction-related problems

Natasa Sorko, The Association "Zarek upanja", Slovenia

Title: Death and grief: From a complex thought point of view

Luz Marina Cano M, Fundación Universitaria Juan N. Corpas, Colombia

Title: Chiari malformation type I: Clinical features and radiological correlation

Maryam Sultan Alhosani, University of Georgia, UAE

Title: Musical ear syndrome

Liia Toropchina, Russian Medical Academy of Continuous Professional Education, Russia

Title: Beyond atrial fibrillation: A case of thyrotoxicosis-associated ischemic stroke in a young patient

Afnan Tayeb; Selma Later, Turkey

Title: Academic stress and mental health among university students: A neuroscience-based awareness initiative

Lebsir Massilia, Algeria

Title: Prevalence of social anxiety and associated risk factors among adults in the united arab emirates following the COVID-19 lockdown

Patol Alsabagh, Emirates Health Services – EHS, UAE

Title: Improvement of brain function by wasabi component “Hexaraphane”

Isao Okunishi, Kinjirushi Co.,Ltd., Japan

Title: Alteration of cortical and subcortical structures in parkinson's disease: a voxel-based morphometry study.

Abakar HAGGAR, Sidi Mohamed Ben Abdellah University, Morocco

Title: Cerebrospinal fluid autoantibody profiles in rheumatologic disorders affecting the central nervous system: A systematic review

Sharmila Venkatachalapathi, India | **Rashid, Ensaf Ibrahim Hassan Ibrahim, Abdullah Khan**

Title: Recognizing and treating brain trauma in children

Leighton J Reynolds, USA

Title: Prognostic model of the severity of psychopathological symptoms of schizophrenia

Vadim Gashkarimov, Republican Clinical Psychiatric Hospital, Russian Federation

Title: Prevalence of abuse, perceived stress and resilience among tribal girls: A comparison with government school girls

Anjali Sharma, Geetanjali University, India

Title: Sociodemographic correlates of emotional and behavioral problems, abuse, and perceived stress among orphan adolescents

Dhruvi Jeenger, Rockwoods International School, India

Title: Claude syndrome unveiled in a case of thalamic-midbrain infarction

Contreras Pauca Carlos Alonso, Universidad Privada Antenor Orrego (UPAO), Perú

Title: Multimodal AI for EDSS estimation, progression modeling and relapse prediction in MS

Alexander Zakharov, Russian Federation

Title: Metabolic predictors of ischemic stroke progression in patients of working age (18–50 Years)

Maria Ponomareva, Novosibirsk State Medical University, Russian Federation

Title: Post traumatic stress disorder, Depression, and Post-migration stress behavioral pattern among Arabic immigrants and refugee populations: a review

Mania Mekhel, University of Debrecen, Hungary

Title: Emotional freedom technique for reducing stress and anxiety among primary caregivers of patients with mental illness in Bangalore

Sujitha Mukkiri, Dayananda Sagar University, India

Title: Rethinking psychiatric care for severe and persistent mental illness: a qualitative expert study on palliative-psychological approaches

Gabi Gübel, Psychiatric University Hospital Zurich (PUK), Switzerland

Title: Clinical outcomes of semi-jailing technique in managing unruptured wide-neck intracranial aneurysms

Wint Shwe Yee Phyo, Hyogo Medical University, Japan

Title: Metabolism of Autism: methionine synthase deficiency due to functional vitamin B12 deficiency.

Gregory Russell-Jones , B12 Oils Pty Ltd., Australia

Title: Quantum Skills for Navigating the A.I. Revolution

Charlotte Shelton, Rockhurst University, USA

Title: Biomarkers in Suicidology

Siarhey Davidouski, Belarusian State Medical University, Belarus

Title: Arousal regulation and posttraumatic functioning in the context of a movement-based neurocognitive intervention: preliminary findings from a Brainkinetik® intervention in war-affected Ukrainian youth

Marzena Agata Folusz, Germany

Title: Automated Quantitative Analysis of Lumbar Spine: A Comprehensive Approach

Purushottam Kumar, All India Institute of Medical Sciences, India

Title: Unities and Disunities of Consciousness

Rocco Gennaro, University of Southern Indiana, USA

Title: Straight or Fractured? The DIDCO Lifeline Framework: A Structured Multidimensional Model for Psychiatric Work Capacity Evaluation

Cristian Damsa, Switzerland

Title: Neuromodulatory and Neuroprotective Efficacy of Cola caricifolia Leaf and Bark Extracts against Aluminum Chloride-Induced Neurotoxicity in Wistar Rats

Chukwubikem Williams, Asian Institute of Technology (AIT), Thailand

Title : Media effects through the theoretical lens of psychoanalysis

Zareesh Zehra, Pakistan

Title: Brain Activation State (BAS) --A New Perspective on Consciousness

Gong Cheng, SGS-CSTC Standards Technical Services Co., Ltd, China

Title : Real-World Treatment of Schizotypal Disorder with Childhood and Adolescent Onset: What Retrospective Data Reveal About Acute and Maintenance Strategies

Svetlana Ivanova, Pirogov Russian National Research Medical University, Russian Federation

Title: Towards Precision Mental Healthcare: A Structured Approach to Assessment and Intervention

Amit Janardhan Logan, Brain & Mental Wellness Tech & Solutions, Malaysia

Title: Early Trauma, Brain Development, and a Novel Therapeutic Approach

Hagit Friedman, Simaney-Derech Institute and Haifa, Isreal

Title: Kiki en Equilibrio: A Serious Game for Cognitive Stimulation in Children

Mariela B. Caputo, Fundación Neuropsicología Clínica, Argentina

Title: Unmasking a Functional Bilateral Corticobulbar Disconnection: Foix–Chavany–Marie Syndrome Following Acute Corona Radiata Infarction in the Presence of Contralateral Opercular Polymicrogyria

Jaisurya Jaisukhalal, University Hospitals Plymouth NHS Trust, UK

Title: Clinical and demographic features of multiple sclerosis in Krasnoyarsk region

Maria V. Abroskina, Krasnoyarsk State Medical University, Russian Federation

Title: Measles Encephalitis: A Clinical Crossroads for Neurology and Psychiatry

Elena Skripchenko, Russian Federation

Title: Addressing behavioral and psychiatric symptoms in dystonia: A case report of Fahr disease

Mohammad Javad Sinaeefar, Iran University of Medical Sciences, Iran

Title: Emotion misregulation in morbid obesity after Pylorus-preserving single-anastomosis duodeno-ileal bypass with sleeve gastrectomy

Ferenc Caászár, Vas County Markusovszky University Teaching Hospital, Hungary

Title: Alzheimer's disease in light of my research and the distinction between the mental and the physical

Andrea Bucci, University of L'Aquila, Italy
